INDEPENDENT AUDITOR'S REPORT

To the Honorable Members
of the Board of Directors
Napa Valley Transportation Authority
Napa, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Napa Valley Transportation Authority (NVTA), as of and for the years ended June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise NVTA's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to NVTA's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of NVTA's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of NVTAs as of June 30, 2018 and 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

During the year ended June 30, 2018, NVTAs adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pension Plans*. Our opinion was not affected by the implementation.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, Schedule of Changes in the Net Other Postemployment Benefits (OPEB) Asset, schedule of NVTAs's proportionate share of the net pension liability, and schedule of contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

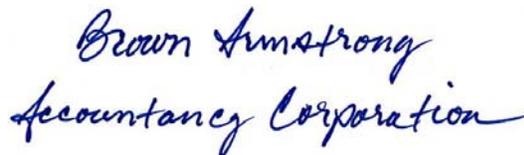

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise NVTAs's basic financial statements. The combining statement of fiduciary net position; combining statement of changes in fiduciary net position; and statement of revenues, expenses, and changes in fund net position – enterprise fund – transit related by operation are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining statement of fiduciary net position; combining statement of changes in fiduciary net position; and statement of revenues, expenses, and changes in fund net position – enterprise fund – transit related by operation are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statement of fiduciary net position; combining statement of changes in fiduciary net position; and statement of revenues, expenses, and changes in fund net position – enterprise fund – transit related by operation are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 24, 2018, on our consideration of NVTA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering NVTA's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**NAPA VALLEY TRANSPORTATION AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEARS ENDED JUNE 30, 2018 AND 2017**

Business-Type Activities

NVTA's Business-Type Activities encompass the financial reports for public transit services provided by NVTA including the Vine (fixed route transit), Vine Go (complimentary Americans with Disabilities Act required paratransit service), American Canyon Transit, the Yountville Trolley, the St. Helena Shuttle, the Calistoga Shuttle, and a Taxi Scrip program. Each of the community shuttles are dial-a-ride transit services.

Business-type activity expenses increased from \$13,324,993 in fiscal year 2016-2017 to \$13,480,279 in fiscal year 2017-2018 which is an overall increase of 1.2%. The growth is accounted for by increases in operating expenses offset by general planning and administration costs.

Business-type activity expenses increased from \$11,547,760 in fiscal year 2015-2016 to \$13,324,993 in fiscal year 2016-2017 which is an overall increase of 15.4%. The growth is accounted for by increases in operating expenses offset by general planning and administration costs.

Transit operating expenses are supported by a variety of funding sources which include:

- Transportation Development Act (TDA) funds
- Federal Transit Administration (FTA) funds
- Fare revenues collected
- Various grants and contributions

Any TDA operating revenue received which is not spent on transit operations is returned to the LTF as described in the Governmental Activities section.

Vine Transit System

As with many transit agencies across the region and throughout the state, Vine Transit faces persistent financial challenges with significant growth in operating costs with marginal increases in operating revenues. Overall transit ridership was lower by three percent (3%) from the previous fiscal year. Vine Transit fixed route service and the Yountville Trolley experienced passenger decreases from the previous year. Vine's commuter buses continues to be a bright spot with nearly a seven percent (7%) increase from fiscal year 2016-2017. Transit services in Calistoga and American Canyon with the Vine Go paratransit services were modestly higher with passenger increases of two-to-three percent (2-3%). Calistoga surged ahead by eight percent (8%) from the previous year. Operating farebox revenue was lower by a scant three tenths of one percent (.33%) over the previous year.

For another year, Vine Transit was the recipient of Small Transit Intensive Cities (STIC) funds which are awarded to small public transit agencies meeting specific performance measures, but the revenues are merit based and an unreliable source of future funding. Although farebox revenues were higher than the previous year, the incremental growth in farebox and non-operating revenues has not kept pace with expenses. Transit planners have been working on a Comprehensive Operations Analysis (COA) for recommendations on service improvements to encourage additional ridership and to increase operating efficiencies while reducing costs. These measures are in part to ensure that the agency is able to meet its statutory farebox recovery requirements in the future. If operational farebox recovery continues to lag, the NVTA Board will need to consider alternatives.

Comprehensive Operations Analysis

NVTA has undertaken a transit planning process called Comprehensive Operations Analysis (COA). The COA evaluates the current transit system looking at future using projections on ridership demand, geographic and demographic changes, and advances in technology. NVTA will use extensive data coupled with research and outreach efforts to develop and implement service revisions to propose recommendations on service revisions and improve system performance. Several recommendations will be presented to the Board of Directors in early 2019 with implantation expected to occur shortly thereafter.

Vine Transit Bus Maintenance Facility Project

The Environmental Impact Report for the Vine Transit Maintenance Facility was certified by the Board on January 17, 2018, and NVTA submitted a National Environmental Protection Act (NEPA) designation letter to Federal Transit Administration (FTA) for a Categorical Exemption (CE) of the project. NVTA is expected to hear back from FTA in the Spring of 2019.

During the fiscal year, NVTA entered into a multiyear agreement with a consultant for the architectural, design and engineering of the new facility. When completed, the 8.3 acre property will feature a 20,000 sq. ft. maintenance facility with six service bays, an 8,000 sq. ft. administration building and regional meeting center, modern bus wash, secured parking for up to 100 transit vehicles, and parking area for employees and visitors. The project is expected to break ground in the Spring of 2019 with an in-service date in 2021.

**NAPA VALLEY TRANSPORTATION AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2018 AND 2017**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Napa Valley Transportation Authority (NVTA), formerly known as the Napa County Congestion Management Agency and Napa County Planning and Transportation Agency, was formed on September 3, 1991, under a Joint Powers Agreement to provide coordinated, continuous, and comprehensive transportation planning for the County of Napa (the County) and the cities of the County. NVTA consists of six member agencies with the voting power of each in parenthesis: the Cities of American Canyon (4), Calistoga (2), Napa (10), and St. Helena (2); the Town of Yountville (2); and the County (4).

The work program for the activities of NVTA is defined by the Board of Directors (the Board) made up of elected officials from the respective member agencies and a member of the Paratransit Coordinating Council (PCC). The PCC member is ex-officio and does not have a vote.

NVTA was formed to serve as the countywide transportation planning body for the incorporated and unincorporated areas of the County. NVTA is charged with coordinating short and long-term planning and funding within an intermodal policy framework in the areas of highways, streets and roads, transit and paratransit, and bicycle path improvements.

NVTA's Joint Powers Agreement was amended effective January 1, 2001, to facilitate the consolidation of transit planning and to allow transfer of Transportation Development Act (TDA) funds directly to NVTA as claimant for transit use to the extent allowed by TDA regulations. The amendment enables NVTA to claim all TDA funds under Articles 4, 4.5, and/or 8 of Chapter 4 of the Public Utilities Code apportioned within the County by the Metropolitan Transportation Commission. NVTA is authorized to claim all apportionments to transit services on behalf of the jurisdictions of the County. In January 2007, the agreement was amended further to change NVTA's name from Napa County Congestion Management Agency to Napa County Transportation and Planning Agency. In February 2016, the name was changed to the Napa Valley Transportation Authority.

Beginning July 1, 2001, NVTA began administering all transit-related activities on behalf of the Cities of Calistoga, Napa, and St. Helena; the Town of Yountville; and the County. Effective July 1, 2006, NVTA assumed direct management of American Canyon Transit.

B. Basis of Presentation

The financial statements of NVTA are prepared in accordance with accounting principles generally accepted in the United States of America.

Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the primary government (NVTA). These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type* activities of NVTA. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation (Continued)

Government-Wide Financial Statements (Continued)

The Statement of Activities demonstrates the degree to which the program expenses of a given function are offset by program revenues. Program expenses include direct expenses, which are clearly identifiable with a specific function, and allocated indirect expenses. Program revenues include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including taxes and unrestricted interest earnings, are presented instead as general revenues.

When both restricted and unrestricted Net Position are available, restricted resources for the purpose intended are used first then unrestricted resources as they are needed.

Fund Financial Statements

The fund financial statements provide information about NVTA's funds, including fiduciary funds. Separate statements for each fund category – *governmental*, *proprietary*, and *fiduciary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds. For the year ended June 30, 2018, NVTA did not have any nonmajor funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Proprietary fund *operating* revenues result from exchange transactions. Exchange transactions are those in which each party receives and gives up essentially equal values. Operating revenues generally result from charges to passengers for public transit services. Operating expenses include the cost of transit service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting the definition of operating revenues and expenses are reported as nonoperating.

NVTA reports the following major governmental fund:

Planning Fund is used as the general fund for NVTA and all planning and administrative activities are accounted for in this fund.

NVTA reports the following major enterprise fund:

Transit Fund is used to account for the revenues and expenses necessary to provide public transit services. Transit operations include the Vine, Vine Go, American Canyon Transit, the Yountville Trolley, the St. Helena Shuttle, the Calistoga Shuttle, and the Taxi Scrip program.

NVTA reports the following additional fund types:

Private Purpose Trust Funds account for assets, primarily cash and investments, held by NVTA in a trustee capacity for other governmental agencies. NVTA is responsible for the administration of two private purpose trust funds. They are used to account for activities of the Abandoned Vehicle Abatement Authority trust fund and the Bay Area Air Quality Management trust fund.

C. Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Nonexchange transactions, in which NVTA gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants, entitlements, and donations. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Interest; state, federal, and local grants; and charges for services are accrued when their receipt occurs within one year after the end of the accounting period so as to be measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting.

D. Cash and Investments

NVTA maintains nearly all of its cash and investments with the County Treasurer in a cash and investment pool. A small independent bank account is used to pay some employee benefits. On a quarterly basis, the County Treasurer allocates interest to investment pool participants based upon their average daily balances. For purposes of the accompanying Statement of Cash Flows, the enterprise fund considers all highly liquid investments with a maturity of three months or less when purchased, and its equity in the County Treasurer's investment pool, to be cash equivalents. The fair value of investments is obtained by using quotations obtained from independent published sources.

Required disclosure information regarding the categorization of investments and other deposit and investment risk disclosures can be found in the County's financial statements. The County's financial statements may be obtained by contacting the County's Auditor-Controller's office at 1195 Third Street, Room B-10, Napa, California 94559. The County Treasury Oversight Committee oversees the Treasurer's investments and policies.

E. Receivables

NVTA's receivables are mostly related to grants and vehicle registration fees. Management has determined NVTA's receivables to be fully collectable. Accordingly, no allowance for doubtful accounts has been made.

F. Inventories

On August 31, 2009, NVTA's multiyear agreement (the Agreement) with the purchased transportation contractor (the Contractor) provided the Contractor with an initial inventory of equipment, tools, and other property to be used to provide services. The Contractor shall be responsible for returning to NVTA, at the termination of the Agreement, property and equipment of equivalent type and value (as of date acquired) and conditions as that identified in the updated initial inventory list, subject to normal wear and tear.

During the last month of the Agreement, NVTA shall conduct a final inventory. The Contractor will be responsible for either replacing property or equipment determined from the inventory list to be missing, damaged, or otherwise unavailable for use, or in a condition that is in excess of ordinary wear and tear or compensating NVTA for its replacement value. These parts are not included in the Agreement with the Contractor. Farebox inventory parts will be tracked separately.

G. Capital Assets

Capital assets are recorded at historical cost or estimated historical cost if actual historical cost is not available. Contributed capital assets are valued at their estimated fair market value on the date contributed. NVTA defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets used in operations are depreciated using the straight-line method over their estimated useful lives in the government-wide statements and proprietary funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Capital Assets (Continued)

The estimated useful lives are as follows:

| | |
|------------|------------|
| Structures | 20 years |
| Vehicles | 1-12 years |
| Equipment | 1-5 years |

NVTA has acquired certain assets with funding provided by federal assistance from various grant programs. NVTA holds title to these assets; however, the federal government retains an interest in these assets should the assets no longer be used for transit purposes.

H. Compensated Absences

NVTA has adopted Governmental Accounting Standards Board (GASB) Statement No. 16, *Accounting for Compensated Absences*. The earned vacation payable upon termination is reported at the current balance of the liability, and may be accumulated up to a maximum of 600 hours by personnel.

I. Interfund Transactions

Interfund transactions are reflected either as loans, services provided, reimbursements, or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation, and are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as “internal balances.” Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide presentation.

J. Advances

Advances arise when resources are received by NVTA before it has a legal claim to them, e.g., when grant monies are received prior to the incurrence of qualifying expenses. In subsequent periods, when both revenue recognition criteria are met, or when NVTA has a legal claim to the resources, the liability is removed from the Balance Sheet and revenue is recognized.

K. Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenditures/expenses during the reporting period. Actual results could differ from these estimates.

L. Reclassifications

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Net Position

The government-wide financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted, and unrestricted.

Net Investment in Capital Assets – This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the asset.

Restricted Net Position – This amount is restricted by external creditors, grantors, contributors, or laws or regulations of other governments, of which NVTA has none.

Unrestricted Net Position – This amount is all net position that does not meet the definition of “net investment in capital assets” or “restricted net position.”

N. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which NVTA is bound to honor constraints on how specific amounts can be spent.

- *Nonspendable fund balance* – amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.
- *Restricted fund balance* – amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- *Committed fund balance* – amounts that can only be used for specific purposes determined by formal action of NVTA’s highest level of decision-making authority (the Board) and that remain binding unless removed in the same manner. Committed fund balance does not lapse at year-end. The formal action must occur prior to the end of the reporting period. However, the amount which will be subject to the constraint may be determined in the subsequent period. The formal action required to commit fund balance shall be Board resolution.
- *Assigned fund balance* – amounts that are constrained by NVTA’s *intent* to be used for specific purposes. The intent can be established at either the highest level of decision-making authority, or by a body or an official designated for that purpose. The Board delegated authority to assign fund balance for a specific purpose to the Manager of Finance.
- *Unassigned fund balance* – the residual classification for NVTA’s Planning Fund that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

When both restricted and unrestricted resources are available for use, it is NVTA’s policy to use restricted resources first, followed by the unrestricted committed, assigned, and unassigned resources as they are needed.

Minimum Fund Balance Policy:

NVTA has adopted a minimum fund balance policy. Planning Fund cash reserves should be at a minimum of \$500,000 per fiscal year. The proprietary cash reserve should be at least 25% of non-restricted funds of the current fiscal year operating budget.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. New Accounting Pronouncements – Implemented

GASB Statement No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other than Pension Plans*. The provisions of this statement are effective for fiscal years beginning after June 15, 2017. NVTA has implemented the provisions of GASB Statement No. 75 in the current year. As a result of this implementation, NVTA reported a prior period adjustment to net position in the amount of \$143,509 and recognized a net OPEB asset and deferred outflow of resources associated with OPEB as of June 30, 2018. See Note 9 for a detailed discussion of the effects of NVTA's current and prior period financial statements as a result of the adoption of this standard.

GASB Statement No. 81 – *Irrevocable Split-Interest Agreement*. The requirements of this statement are effective for reporting periods beginning after December 15, 2016. There was no effect on NVTA's accounting and financial reporting as a result of implementing this standard.

GASB Statement No. 85 – *Omnibus 2017*. The requirements of this statement are effective for periods beginning after June 15, 2017. There was no effect on NVTA's accounting and financial reporting as a result of implementing this standard.

GASB Statement No. 86 – *Certain Debt Extinguishment Issues*. The requirements of this statement are effective for periods beginning after June 15, 2017. There was no effect on NVTA's accounting and financial reporting as a result of implementing this standard.

P. Future GASB Statements

GASB Statement No. 83 – *Certain Asset Retirement Obligations*. The requirements of this statement are effective for the reporting periods beginning after June 15, 2018. Earlier application is encouraged. NVTA has not fully judged the effect of implementation of GASB Statement No. 83 as of the date of the basic financial statements.

GASB Statement No. 84 – *Fiduciary Activities*. The requirements for this statement are effective for fiscal years beginning after December 15, 2018. NVTA believes the statement will not apply.

GASB Statement No. 87 – *Leases*. The requirements of this statement are effective for periods beginning after December 15, 2019. NVTA has not fully judged the effect of implementation of GASB Statement No. 87 as of the date of the basic financial statements.

GASB Statement No. 88 – *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. The requirements of this statement are effective for periods beginning after June 15, 2018. NVTA has not fully judged the effect of implementation of GASB Statement No. 88 as of the date of the basic financial statements.

GASB Statement No. 89 – *Accounting for Interest Cost Incurred before the End of a Construction Period*. The requirements of this statement are effective for periods beginning after December 15, 2019. NVTA has not fully judged the effect of implementation of GASB Statement No. 89 as of the date of the basic financial statements.

GASB Statement No. 90 – *Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61*. The requirements of this statement are effective for periods beginning after December 15, 2018. NVTA has not fully judged the effect of implementation of GASB Statement No. 90 as of the date of the basic financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Q. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources related to pension, and pension expense, information about the fiduciary net position of NVTA's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

R. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and, thus, will not be recognized as an outflow of resources (expense/expenditure) until then. NVTA has only two items that qualify for reporting in this category. It is for pension contributions made after the measurement date and other pension related deferred outflows of resources. GASB Statement No. 68 does not allow the cash payments made to the Plan after the measurement date to have any effect on either the net pension liability or the pension expense that is reflected in these financial statements.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. NVTA has only one item, which arises as a result of the implementation of GASB Statement No. 68. Deferred inflows of resources are recorded for the net difference between projected and actual earnings on pension plan investments, adjustments due to differences in proportions, and changes in assumptions.

S. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of NVTA's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. Accounting principles generally accepted in the United States of America require that the reported results must pertain to liability and asset information within certain defined timeframes.

NOTE 2 – CASH AND INVESTMENTS IN COUNTY TREASURY/IMPREST CASH

General

NVTA has adopted GASB Statement No. 31 which requires investments of governmental agencies to be reported at fair value. However, investment pools, such as a state or county treasury, may report the value of short-term investments with remaining maturities of less than 90 days at amortized cost. The majority of the County Treasury investments have a remaining maturity of less than 90 days. In addition, GASB Statement No. 31 does not apply to immaterial cost/value differences.

NVTA has adopted GASB Statement No. 40, *Deposit and Investment Risk Disclosures*. GASB Statement No. 40 requires governmental entities to assess categories of risk associated with their deposits and disclose these risks.

All deposits are fully collateralized in accordance with Section 53652 of the California Government Code. The California Government Code requires California banks and savings and loan associations to secure NVTA's deposits by pledging government securities as collateral.

The market value of pledged securities must equal at least 110% of NVTA's deposits. California law also allows financial institutions to secure NVTA's deposits by pledging first trust deed mortgage notes having a value of 150% of NVTA's total deposits.

Collateral is held by the pledging financial institution's trust department and is considered held in NVTA's name. NVTA may waive collateral requirements for deposits that are fully insured up to \$250,000 by federal depository insurance. NVTA has \$250,000 that is covered by federal depository insurance as of June 30, 2018.

NOTE 2 – CASH AND INVESTMENTS IN COUNTY TREASURY/IMPREST CASH (Continued)

General (Continued)

NVTA had no deposit or investment policy that addressed a specific type of risk. Required disclosures for NVTA's deposit and investment risks held in the County's investment pool at June 30, 2018, were as follows:

Credit risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. State law and the County's Investment Policy limit investments in commercial paper to the rating of A1 by Standard & Poor's or P-1 by Moody's Investors Service.

State law and the County's Investment Policy also limit investments in corporate bonds to the rating of A by Standard & Poor's and Moody's Investors Service. NVTA establishes its credit limits based on the County's Investment Policy.

Presented below is the minimum rating required by (where applicable) NVTA's investment policy and the actual rating as of year-end for each investment type.

| 2018 | | | | |
|-------------------------|--------------------|-----------------------------|-------------------------------|--------------------|
| <u>Investments type</u> | <u>Total</u> | <u>Minimum legal rating</u> | <u>Ratings as of year-end</u> | <u>Not rated</u> |

| | <u>\$2,774,178</u> | | | <u>\$2,774,178</u> |

Custodial credit risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

For investments and deposits held with fiscal agents, custodial credit risk is the risk that, in the event of the failure of the counterparty, NVTA will not be able to recover the value of its investments or deposits that are in the possession of an outside party. At year-end, NVTA's funds in the County's investment pool and cash with fiscal agents had no securities exposed to custodial credit risk.

NOTE 2 – CASH AND INVESTMENTS IN COUNTY TREASURY/IMPREST CASH (Continued)

General (Continued)

Custodial credit risk (Continued)

At June 30, 2018, in accordance with State law and the County's Investment Policy, NVTA did not have 5% or more of its net investment in commercial paper, corporate bonds, or medium-term notes of a single organization, nor did it have 10% or more of its net investment in any one money market mutual fund within the County's Investment Pool. Investments in obligations of the U.S. government, U.S. government agencies, or government-sponsored enterprises are exempt from these limitations.

Interest rate risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The County manages NVTA's exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years or less in accordance with the County's Investment Policy.

Investments held in the County's investment pool are available on demand and are stated at cost plus accrued interest, which approximates fair value.

Information about the sensitivity of the fair values of NVTA's investments to market interest rate fluctuations is provided by the following table that shows the distribution of NVTA's investments by maturity:

Investment in the County Investment Pool

NVTA maintains all of its cash and investments with the County Treasurer in a cash and investment pool. NVTA is considered to be an involuntary participant in the external investment pool. On a quarterly basis, the County Treasurer allocates interest to investment pool participants based upon their average daily balances. For purposes of the accompanying Statement of Cash Flows, the enterprise fund considers all highly liquid investments with a maturity of three months or less when purchased, and its equity in the County Treasurer's investment pool, to be cash equivalents. The fair value of investments is obtained by using quotations obtained from independent published sources.

Fair Value Measurements

NVTA categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices quoted in active markets;
- Level 2: Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active; and
- Level 3: Investments reflect prices based upon unobservable sources.

NOTE 2 – CASH AND INVESTMENTS IN COUNTY TREASURY/IMPREST CASH (Continued)

Fair Value Measurements (Continued)

NVTA has the following recurring fair value measurements as of June 30, 2018 and 2017:

2018

| <u>Investments by fair value level</u> | <u>Fair Value Measurements Using</u> | | |
|--|---|--|--|
| | <u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u> | <u>Significant Other Observable Inputs (Level 2)</u> | <u>Significant Unobservable Inputs (Level 3)</u> |
| Held by trustee: | | | |

NOTE 6 – DUE TO OTHER GOVERNMENT AGENCIES

Business-Type Activities – Due to LTF

TDA funds are apportioned, allocated, and disbursed in accordance with allocation instructions from the Metropolitan Transportation Commission (MTC) for specific transportation purposes. The Local Transportation Fund (LTF) allocates monies to the transit system to support operations. The TDA, which governs the use of these funds, requires that any funds not used must be returned to their sources. LTF allocations are considered earned when they are properly spent for operations by the transit system.

It is the current practice of NVTA to have excess revenue returned to the funding agency. NVTA had excess revenues of \$1,598,092 and \$456,002 at June 30, 2018 and 2017, respectively. Money returned to LTF will be reallocated for future capital purchases or operating assistance.

Allocations received but not earned were recorded as Due to Other Government Agencies as follows:

| Net Increase | 1,645,786 | 530,533 |
| Return of LTF Capital | <u>(456,002)</u> | <u>(2,699,378)</u> |
| Previous Year Economic Adjustment | <u>(47,694)</u> | <u>(74,531)</u> |
| Balance - End of Year | <u>\$ 1,598,092</u> | <u>\$ 456,002</u> |

A review of the previous fiscal year's calculations disclosed an overpayment was made in 2017 to the LTF trust fund. The overpayment was a result of a posting error. Accordingly, NVTA owes \$47,694 and posted an adjustment in the current fiscal year. Similarly, an adjustment of \$74,531 was made in 2017.

NOTE 7 – AGREEMENTS AND COMMITMENTS

Bay Area Air Quality Management District Agreement

NVTA entered into an agreement with the Bay Area Air Quality Management District (the District) to implement specified measures to improve air quality in the County. The funding for this agreement comes from Assembly Bill (AB) 434 allowing the District to levy a surcharge on motor vehicle registration fees. Quarterly, the District must transfer 40% of the surcharge, less management fees and audit costs, to NVTA, as the selected Program Manager. However, the agreement may be terminated at any time by either party and there are no assurances of annual renewal. As program manager, NVTA allocates 5% of these funds to itself to administer the program.

Abandoned Vehicle Abatement Program

The California legislature has enacted legislation to allow local governments to assess a fee on vehicle registration for the purpose of aiding local governments in the recovery of costs associated with the disposition of abandoned vehicles. NVTA is the designated service authority to manage and distribute abandoned vehicle fees to participating jurisdictions within the County. These fees are collected by NVTA and distributed to the jurisdictions based on reimbursement requests submitted to the service authority. The current program has sunset on May 31, 2016, and remaining funds will be distributed to the jurisdictions until all funding has been exhausted.

Metropolitan Transportation Commission

NVTA received a federal highway administration planning grant from the MTC. The purpose of the grant was to implement congestion planning and programming activities for the County and its surrounding cities. Amounts received or receivable from the MTC are subject to audit and adjustment by the MTC. Any disallowed claims including amounts already collected, may constitute a liability of NVTA. The amount, if any, of expenditures which may be disallowed by MTC cannot be determined at this time although NVTA expects such amounts, if any, to be immaterial.

NOTE 8 – PENSION PLAN

A. General Information about the Pension Plan

Plan Description – All qualified permanent and probationary employees are eligible to participate in NVTA's Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS). The Plan consists of individual rate plans (benefit tiers) within a miscellaneous risk pool. Plan assets may be used to pay benefits for any employer rate plan of the risk pool. Accordingly, rate plans within the pools are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the miscellaneous pool. NVTA sponsors three rate plans. Benefit provisions under the Plan are established by State statute and NVTA resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Classic members (Tier 1) with five years of total service are eligible to retire at age 55 with statutorily reduced benefits (2.5%@Age 55). Members hired after May 21, 2011, (Tier 2) with five years of total service are eligible to retire at age 60 with statutorily reduced benefits (2%@Age 60). The California Public Employees' Pension Reform Act (PEPRA) established a separate tier for members hired after January 1, 2013. PEPRA Members with five years of total service are eligible to retire at age 62 with statutorily reduced benefits (2% at age 62). All members are eligible for non-duty disability benefits after 5 years of service. The cost of living adjustments for the Plan are applied as specified by the California Public Employees' Retirement Law.

NOTE 8 – PENSION PLAN (Continued)

A. General Information about the Pension Plan (Continued)

The rate plan provisions and benefits in effect at June 30, 2018 and 2017, are summarized as follows:

| Hire Date | Prior to May 21, 2011 (Tier I) | On or after May 21, 2011 (Tier II) | On or after January 1, 2013 (PEPRA) |
|---|--------------------------------------|--|---|
| Benefit Formula | 2.5%@55 | 2%@60 | 2%@62 |
| Benefit Vesting Schedule | 5 Years Service | 5 Years Service | 5 Years Service |
| Benefit Payments | Monthly for life | Monthly for life | Monthly for life |
| Retirement Age | 55 | 60 | 62 |
| Monthly Benefits, as a Percentage of Eligible Compensation | 2.5% | 2% | 2% |
| Required Employee Contribution Rates | 8.000% | 7.000% | 6.250% |
| Required Employer Contribution Rates | 9.539% | 7.200% | 6.533% |

Contributions – Section 20814(c) of the California Public Employees’ Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS’ annual actuarial valuation process. NVTA’s actuarially determined rate is based on the estimated amount necessary to pay the Plan’s allocated share of the risk pools’ costs of benefits earned by employees during the year, and any unfunded accrued liability. NVTA is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. NVTA’s contributions to the Plan for the years ended June 30, 2018 and 2017, were \$124,099 and \$117,333, respectively.

As of June 30, 2018 and 2017, NVTA reported a net pension liability for its proportionate share of the net pension liability of the Plan in the amount of \$375,403 and \$292,430, respectively.

NVTA’s net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2017 and 2016, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 and 2015, rolled forward to June 30, 2017 and 2016, using standard update procedures. NVTA’s proportion of the net pension liability was based on a projection of NVTA’s long-term share of contributions to the Plan relative to the projected contributions of all participating employers, actuarially determined. NVTA’s proportionate share of the net pension liability for the Plan as of June 30, 2017 and 2016, was as follows:

| | |
|------------------------------|-------------------------|
| Proportion - June 30, 2016 | 0.337900% |
| Proportion - June 30, 2017 | <u>0.378500%</u> |
| Change - Increase (Decrease) | <u><u>0.040600%</u></u> |

NOTE 8 – PENSION PLAN (Continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

For the years ended June 30, 2018 and 2017, NVTA recognized pension expense/(income) of \$194,911 and \$7,937. At June 30, 2018 and 2017, NVTA reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| 2018 | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|---|---|--|
| Differences between Actual and Expected Experience | \$ 741 | \$ 10,611 |
| Changes in Assumptions | 91,896 | 7,007 |
| Net Differences between Projected and Actual Earnings on Plan Investments | 20,783 | - |
| Change in Employer's Proportion | 122,387 | 21,511 |
| Differences between the Employer's Contributions and the Employer's Proportionate Share of Contributions | 71,481 | - |
| Pension Contributions Subsequent to Measurement Date | <u>124,099</u> | <u>-</u> |
| Total | <u>\$ 431,387</u> | <u>\$ 39,129</u> |
| | | |
| 2017 | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
| Differences between Actual and Expected Experience | \$ 3,278 | \$ 751 |
| Changes in Assumptions | - | 31,016 |
| Net Differences between Projected and Actual Earnings on Plan Investments | 161,430 | - |
| Change in Employer's Proportion | 109,833 | 49,812 |
| Differences between the Employer's Contributions and the Employer's Proportionate Share of Contributions | 69,802 | - |
| Pension Contributions Subsequent to Measurement Date | <u>117,333</u> | <u>-</u> |
| Total | <u>\$ 461,676</u> | <u>\$ 81,579</u> |

\$124,099 and \$117,333 reported as deferred outflows of resources related to contributions subsequent to the measurement date during the years ended June 30, 2018 and 2017, respectively, will be recognized as a reduction of the net pension liability in the years ended June 30, 2019 and 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

| <u>Year Ended June 30</u> | |
|-------------------------------|-------------------|
| 2019 | \$ 126,461 |
| 2020 | 90,659 |
| 2021 | 63,378 |
| 2022 | (12,339) |
| 2023 | - |
| Thereafter | <u>-</u> |
| Total | <u>\$ 268,159</u> |

NOTE 8 – PENSION PLAN (Continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions – The total pension liabilities in the June 30, 2016 and 2015 actuarial valuations were determined using the following actuarial assumptions:

| | | |
|---------------------------|------------------------|------------------------|
| Valuation Date | June 30, 2016 | June 30, 2015 |
| Measurement Date | June 30, 2017 | June 30, 2016 |

| Actuarial Assumptions: | | |
| Discount Rate | 7.15% | 7.65% |
| Inflation | 2.75% | 2.75% |
| Payroll Growth | 3.00% | 3.00% |
| Projected Salary Increase | Varies ⁽¹⁾ | Varies ⁽¹⁾ |
| Investment Rate of Return | 7.65% ⁽²⁾ | 7.65% ⁽²⁾ |
| Mortality | CalPERS ⁽³⁾ | CalPERS ⁽³⁾ |

⁽¹⁾ Depending on age, service, and type of employment.

⁽²⁾ Net of pension plan investment expenses, including inflation.

⁽³⁾ The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2015 experience study report.

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2016 and 2015 valuations were based on the results of a January 2015 actuarial experience study for the period 1997 to 2011. Further details of the Experience Study can found on the CalPERS website.

Discount Rate – The discount rate used to measure the total pension liability for June 30, 2018 and 2017, was 7.15% and 7.65%, respectively. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the Plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15% and 7.65% discount rates for 2018 and 2017, respectively, are applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained from the CalPERS' website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

NOTE 8 – PENSION PLAN (Continued)**B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions** (Continued)

The tables below reflect the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. The target allocation shown was adopted by the CalPERS Board of Administration effective on July 1, 2014.

C. Payable to the Pension Plan

At June 30, 2018 and 2017, NVTA had no outstanding amounts for contributions to the Plan required for the years then ended.

NOTE 9 – OPEB

A. General Information about the OPEB Plan

Plan Description – NVTA participates in the California Employers’ Retiree Benefit Trust (CERBT), a trust established by Chapter 331 of the 1988 Statutes and initially funded in 2007. The purpose of the trust is to receive contributions from participating employers and establish separate employer prefunding accounts to pay for OPEB. The CERBT is an agent multiple-employer plan and is administered by CalPERS. The OPEB Plan provides postretirement health care benefits to all employees meeting certain selected criteria. Employees on the payroll as of June 30, 2018 and 2017, who retire from NVTA with 3 years of NVTA service and 25 years of CalPERS service will receive 1.3 times the Public Employees’ Medical and Hospital Care Act (PEMHCA) minimum dollar amounts who retire from NVTA at or after age 50.

The following is a description of the current retiree benefit plan:

| | |
|------------------------|---|
| Benefit Types Provided | Medical only |
| Duration of Benefits | Lifetime |
| Required Service | CalPERS retirement and 5 years NVTA |
| Minimum Age | 50 |
| Dependent Coverage | Family eligible |
| NVTA Contribution % | Up to 100% |
| NVTA Cap Highest | 1.3 times PEMCHA minimum dollar amounts |

NOTE 9 – OPEB (Continued)

A. General Information about the OPEB Plan (Continued)

Employees Covered – As of the June 30, 2017 valuation, the following current and former employees were covered by the benefit terms for the OPEB Plan:

| | <u>2018</u> |
|--|------------------|
| Inactive Employees or Beneficiaries Currently Receiving Benefits | 1 |
| Inactive Employees Entitled to but not yet Receiving Benefits | 2 |
| Active Employees | <u>14</u> |
| Total | <u><u>17</u></u> |

Contributions – The contribution requirements of plan members and NVTA are established and may be amended by NVTA’s Board. These contributions are neither mandated nor guaranteed. NVTA has retained the right to unilaterally modify its payment for retiree health care benefits. Refer to the table above for the contribution requirements. For the year ended June 30, 2018, NVTA contributed \$25,930. Employees are not required to contribute to the OPEB Plan.

Net OPEB Asset – NVTA’s net OPEB asset was measured as of June 30, 2017, and the total OPEB asset used to calculate the net OPEB asset was the Plan Fiduciary Net Position of the OPEB trust held with CalPERS. The following actuarial methods and assumptions were used:

| | |
|---------------------------|--|
| Reporting Date | June 30, 2018 |
| Valuation Date | June 30, 2017 |
| Measurement Date | June 30, 2017 |
| Actuarial Assumptions: | |
| Discount Rate | 5.50% |
| Inflation | 2.75% |
| Salary Increases | 3.00% |
| Investment Rate of Return | 5.50% |
| Mortality Rate | Derived using CalPERS' Membership Data for all Funds ⁽¹⁾ |
| Pre-Retirement Turnover | Derived using CalPERS' Membership Data for all Funds ⁽²⁾ |

⁽¹⁾ Pre-retirement mortality information was derived from data collected during 1997 to 2011 CalPERS Experience Study dated January 2014 and post-retirement mortality information was derived from the 2007 to 2011 CalPERS Experience Study. The Experience Study Reports may be accessed on the CalPERS website www.calpers.ca.gov under Forms and Publications.

⁽²⁾ The pre-retirement turnover information was developed based on CalPERS’ specific data. For more details, please refer to the 2007 to 2011 Experience Study Report. The Experience Study Report may be accessed on the CalPERS website www.calpers.ca.gov under Forms and Publications.

NOTE 9 – OPEB (Continued)

A. General Information about the OPEB Plan (Continued)

The long-term expected rate of return on OPEB Plan investments was determined using a building block method in which expected future real rates of return (expected returns, net of OPEB Plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|---|-------------------|--|
| Global Equity | 24.00% | 4.82% |
| Fixed Income | 39.00% | 1.47% |
| Treasury Inflation Protected Securities | 26.00% | 1.29% |
| Commodities | 3.00% | 0.84% |
| REITs | 8.00% | 3.76% |
| Total | 100.00% | |

Discount Rate – The discount rate used to measure the total OPEB liability was 5.5%. The projection of cash flows used to determine the discount rate assumed that NVTA contributions will be sufficient to fully fund the obligation over a period not to exceed 30 years. Historic 30 year real rates of return for each asset class along with the assumed long-term inflation assumption were used to set the discount rate. The expected investment return was offset by the investment expenses of 15 basis points. Based on those assumptions, the OPEB Plan’s fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB Plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Asset – The changes in the net OPEB asset for the OPEB Plan are as follows:

| | Increase (Decrease) | | |
|--------------------------|----------------------|-----------------------------|----------------------------|
| | Total OPEB Liability | Plan Fiduciary Net Position | Net OPEB Liability/(Asset) |
| Balance at June 30, 2017 | \$ 132,928 | \$ 242,037 | \$ (109,109) |

Sensitivity of the Net OPEB Asset to Changes in the Discount Rate – The following presents the net OPEB asset of NVTA if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2017:

| | | |
|-----------------------|----|-----------|
| 2017 | | |
| 1% Decrease | | 4.50% |
| Net OPEB Asset | \$ | (85,100) |
| Current Discount Rate | | 5.50% |
| Net OPEB Asset | \$ | (113,740) |
| 1% Increase | | 6.50% |
| Net OPEB Asset | \$ | (136,730) |

OPEB Plan Fiduciary Net Position – Detailed information about the OPEB Plan’s fiduciary net position is available in the separately issued CalPERS financial reports.

Recognition of Deferred Outflows and Deferred Inflows of Resources – Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense.

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB – For the fiscal year ended June 30, 2018, NVTA recognized OPEB expense of \$27,159. As of fiscal year ended June 30, 2018, NVTA reported deferred outflows of resources related to OPEB from the following sources:

| | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|--|---|--|
| OPEB Contributions Subsequent to Measurement Date | \$ 25,930 | \$ - |
| Differences between Actual and Expected Experience | - | - |
| Changes in Assumptions | - | - |
| Net Differences between Projected and Actual Earnings on Plan Investments | <u>2,610</u> | <u>-</u> |
| Total | <u>\$ 28,540</u> | <u>\$ -</u> |

The \$25,930 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2017 measurement date will be recognized as an increase to the net OPEB liability during the fiscal year ending June 30, 2019.

NOTE 10 – EMPLOYEE BENEFITS – DEFERRED COMPENSATION PLAN

Employees of NVTA may participate in a deferred compensation plan adopted under the provisions of the Internal Revenue Code (IRC) Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments).

NOTE 10 – EMPLOYEE BENEFITS – DEFERRED COMPENSATION PLAN (Continued)

The deferred compensation plan is available to all employees of NVTA. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency.

The deferred compensation plan is administered by an unrelated financial institution through CalPERS. Under the terms of the IRC Section 457 deferred compensation plan, all deferred compensation and income attributable to the investment of the deferred compensation amounts held by the financial institution, until paid or made available to the employees or beneficiaries, are the property of the employee.

NOTE 11 – INSURANCE AND RISK OF LOSS

NVTA is exposed to various risks of loss related to torts, theft or damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. NVTA maintains various insurance policies for directors and officers, property and liability, commercial liability, and workers' compensation against potential risk of loss through private insurance carriers. NVTA secures vehicular and liability coverage for business-type activities of up to \$5,000,000 per incident through its purchased transportation contractor.

NOTE 12 – RELATED PARTY TRANSACTIONS

County personnel provide administration services to NVTA. The County also provides legal counsel. During the fiscal years ended June 30, 2018 and 2017, NVTA paid to the County, a related party, the following amounts:

| | <u>2018</u> | <u>2017</u> |
|----------------------------------|-------------------|-------------------|
| Accounting and Legal Services | \$ 12,426 | \$ 17,081 |
| Other Services and Supplies | <u>135,409</u> | <u>152,575</u> |
| Total Related Party Transactions | <u>\$ 147,835</u> | <u>\$ 169,656</u> |

NOTE 13 – FAREBOX RATIO

Article 4

Article 4 transit operations include Vine and American Canyon Transit. As agreed to by MTC, the combined farebox ratio requirement is 15%. The farebox ratio for the years ended June 30, 2018 and 2017, was 17.98% and 18.42%, respectively, as follows:

| | June 30, 2018 | | |
|--|---------------------|---------------------|-------------------|

Farebox revenue and operating cost used for farebox ratio calculation will not agree to the Statement of Revenues, Expenses, and Changes in Fund Net Position for the Proprietary Fund (see page 19). The sales of non-federal assets are eligible as farebox revenues. Supplies not directly used for transit have been removed from operating costs.

Recent changes to the Transportation Development Act statutes allow for the inclusion of local funds to calculate statutory farebox ratio. California Public Utilities Code (PUC) Section 99268.19 states that: "If fare revenues are insufficient to meet the applicable ratio of fare revenues to operating cost required by this article, an operator may satisfy that requirement by supplementing its fare revenues with local funds. As used in this section, "local funds" means any nonfederal or nonstate grant funds or other revenues generated by, earned by, or distributed to an operator."

For the fiscal years ended June 30, 2018 and 2017, NVTA was in compliance with the minimum farebox ratio of 15% for Article 4 transit operations.

Without the use of local funds, sale of asset revenue, and chargebacks to meet statutory requirements, operation farebox for the fiscal year ended June 30, 2018, would be 12.46%.

NOTE 13 – FAREBOX RATIO (Continued)

Article 8

Article 8 transit operations include Vine Go, Calistoga Shuttle, St. Helena Shuttle, Yountville Trolley, and the Taxi Scrip program. TDA Section 6633.2 requires NVTa to meet a 10% farebox revenue to total operating expenses ratio. The farebox revenue ratio for the years ended June 30, 2018 and 2017, for Article 8 transit operations was 10.53% and 10.52%, respectively, as follows:

| | June 30, 2018 | | |
|--|---|---------------------------------------|--|
| <u>Article 8</u> | <u>Total Article 8 Services</u> | <u>Taxi Scrip and Vine Go</u> | <u>Calistoga, Yountville, and St. Helena</u> |

BUDGETS AND BUDGETARY ACCOUNTING

Formal budgetary accounting is employed as a management control by Napa Valley Transportation Authority (NVTA). A biennial budget is adopted each even-numbered fiscal year by the Board of Directors (the Board). The accounting method used to prepare the budget is consistent with accounting principles generally accepted in the United States of America. All changes or amendments to the budget require prior approval of the Board. Unused appropriations lapse at the end of the fiscal year.

Notes to Schedule:

Benefit changes. The figures above do not include any liability impact that may have resulted from plan changes which occurred after June 30, 2014, as they have minimal cost impact. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

Changes in assumptions. GASB Statement No. 68, paragraph 68 states that the long-term expected rate of return should be determined net of pension plan investment expenses but without reduction for pension plan administrative expenses. The discount rate of 7.15 percent used for the June 30, 2016 measurement date was net of administrative expenses.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH THE STATUTES, RULES, AND REGULATIONS OF THE CALIFORNIA TRANSPORTATION DEVELOPMENT ACT AND THE ALLOCATION INSTRUCTIONS AND RESOLUTIONS OF THE METROPOLITAN TRANSPORTATION COMMISSION

To the Honorable Members
of the Board of Directors
Napa Valley Transportation Authority
Napa, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Napa Valley Transportation Authority (NVTA) as of and for the year ended June 30, 2018, and have issued our report thereon dated December 24, 2018.

Compliance

As part of obtaining reasonable assurance about whether NVTA's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. Additionally, we performed tests to determine that allocations made and expenditures paid by NVTA were made in accordance with the allocation instructions and resolutions of the Metropolitan Transportation Commission and in conformance with the California Transportation Development Act. Specifically, we performed each of the specific tasks identified in the California Code of Regulations Sections 6666 and 6667 that are applicable to NVTA. Based on our procedures, no instances of noncompliance with applicable statutes, rules, and regulations of the Transportation Development Act and the allocation instructions and resolutions of the Metropolitan Transportation Commission were noted. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion.

Also as part of our audit, we performed tests of compliance to determine whether certain state funds were received and expended in accordance with the applicable bond act and state accounting requirements.

Purpose of this Report

The purpose of this report is solely to describe the scope of our internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of NVTA's internal control or on compliance. Accordingly, this report is not suitable for any other purpose.
